Summary

Hi there! I'm Omollo Cliff Oganda, an entry level software engineer with a passion for developing innovative and user-friendly applications. I'm well versed in a variety of programming languages, frameworks and technologies, including and not limited to HTML, , CSS Vue, React, Laravel, Node, Express, MongoDB, MySQL, Git and GitHub. I have experience building responsive and scalable web applications, working both independently and collaboratively to ensure projects are completed on time and to the highest standard. In my previous projects, I've demonstrated my ability to take a project from concept to completion, paying attention to every detail along the way.

I'm always eager to learn new technologies and take on new challenges, and I'm confident that my strong analytical and problem solving skills will enable me to thrive as a software engineer. If you're looking foe a dedicated and driven developer with a passion for creating high-quality software, please don't hesitate to reach out to me!

Experience

Microsoft Learn Student Ambassador
Microsoft

Apr 2023 - Present (3 months)

Responsibilities

As Microsoft Learn Student Ambassador, I am tasked to occasionally organize and host events both physically and virtually. During these events, I help students learn Microsoft Technologies such as Cloud Computing, Web Development, Business apps and other topics.

For the time that I have been an ambassador, I have seen a success as more students have been encouraged to join the local tech communities where we seek to learn and empower each other. This has seen the community grow from a membership of 65 to 241 students.

I have also been promoted to two milestones, from New to Alpha and From Alpha to Beta and awarded Certificates of Achievement

Education

Lux-Tech Academy
React Js Advanced Bootcamp, Computer Software Engineering

2022 - 2023

Attended Lux Tech Academy's React bootcamp to deepen my knowledge and skills in ReactJS, a popular JavaScript library for building dynamic web applications. With prior experience in React, I found the program to be an excellent opportunity to advance my understanding of more advanced topics such as Redux, React Router, and Hooks. Through the bootcamp, I gained hands-on experience working on complex projects and received guidance from experienced instructors to help me improve my skills. Overall, the program was an enriching experience that helped me solidify my React knowledge and prepare for more challenging roles in front-end web development.

Jomo Kenyatta University of Agriculture and Technology

Bachelor of Science - BS, Computer Science
Sep 2022 - Dec 2026

Egerton University
Computer Science
2018 - 2023

Licenses & Certifications

Microsoft Learn Student Ambassador - Microsoft
https://studentambassadors.microsoft.com/studentambassadors/certificate/1c2d4817

MongoDB Certified Developer, Associate (C100DEV) - MongoDB
MDB3z3zltfdas

Building RESTful APIs in Laravel - LinkedIn
